

# *CPC 102: Color*

**Practical knowledge of light and color, with color studies and charts**

Meets: Fridays (see start date schedule for specific date)

Time: 9am-12pm

Length of Course: 10 weeks

Instructor: Timothy Rees

***Course Description:*** This class explores the vast topic of color. Students will gain an understanding of how to mix color via color charts and studies, how light sources affect the color of their subject, how to use color to affect composition, movement, and mood of a painting, and more. This class will teach the student to produce the clean colors needed to create well-executed paintings.
